
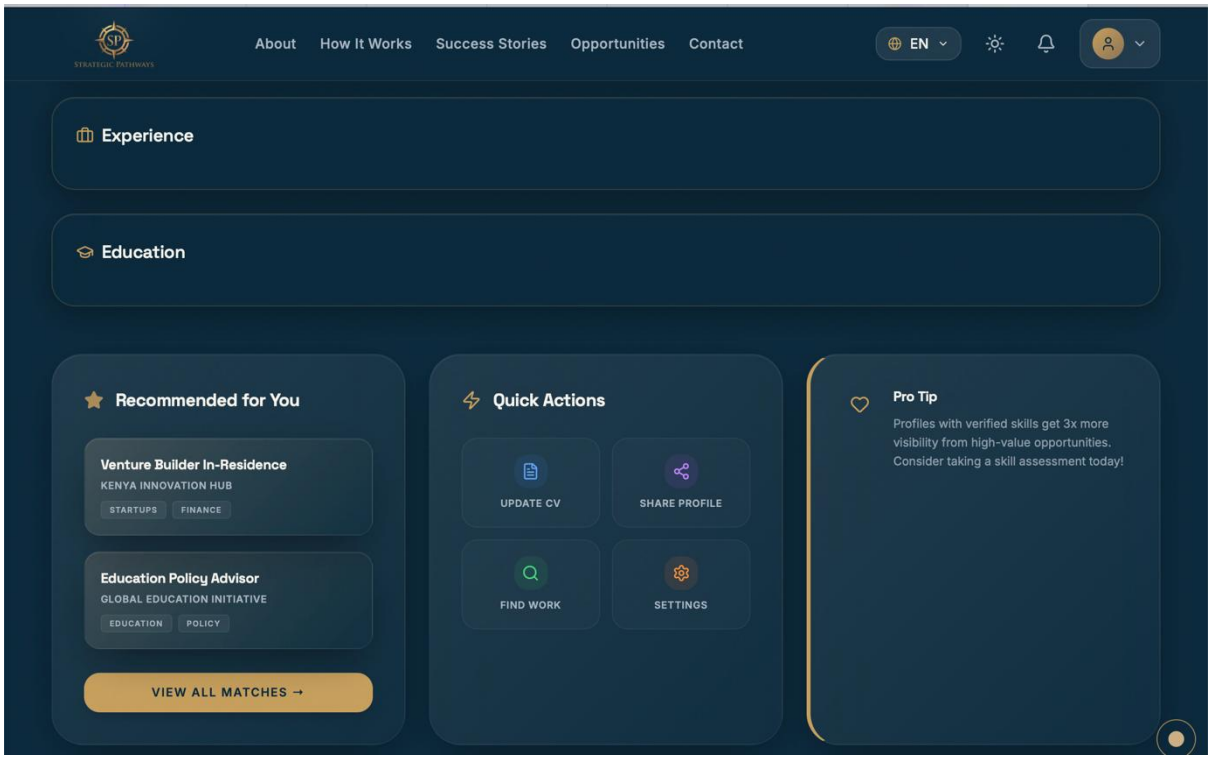
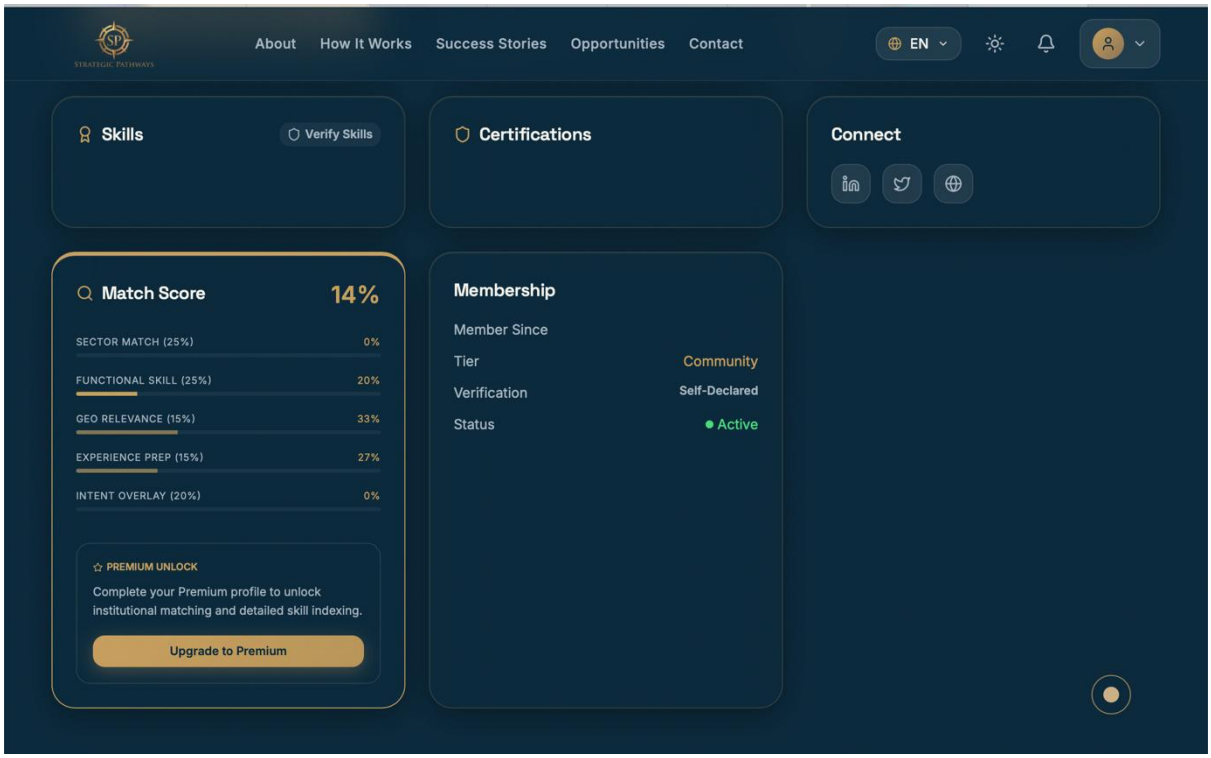
Says professional member, what other membership do we have? Firm membership?

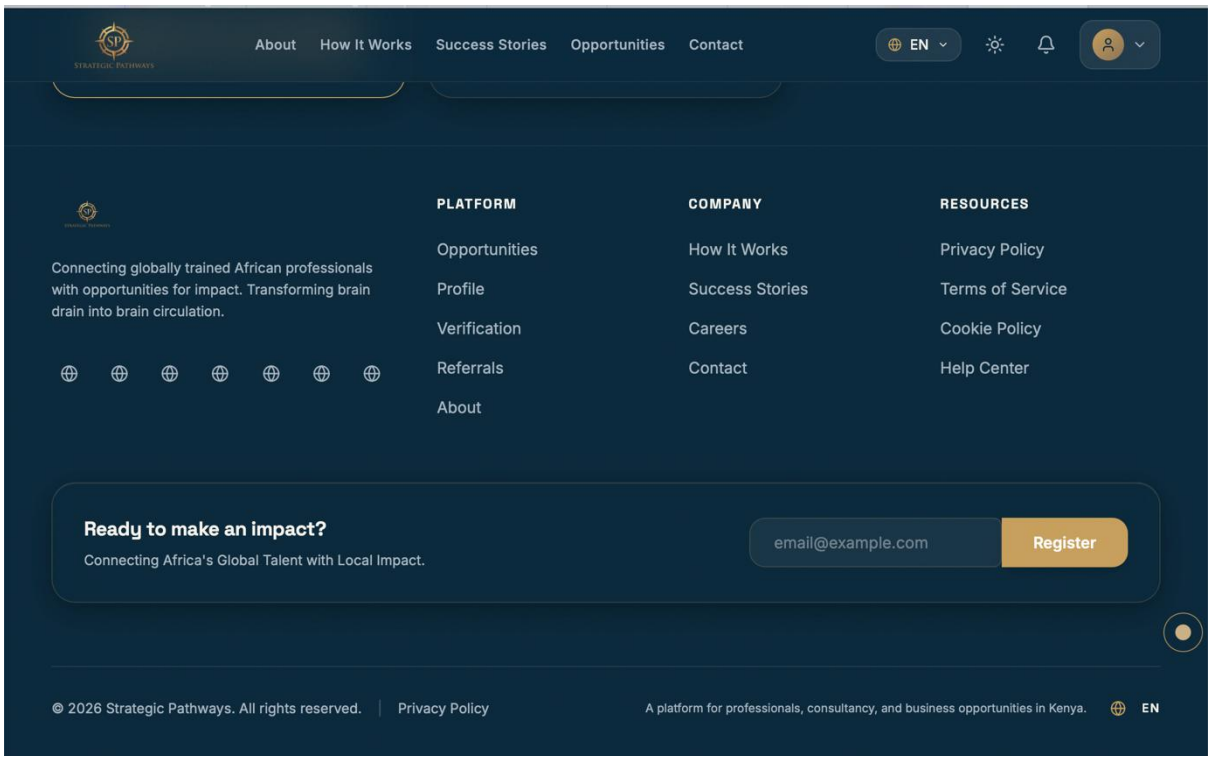


Recommended for you: lock it for freemium access. Users have to upgrade to access

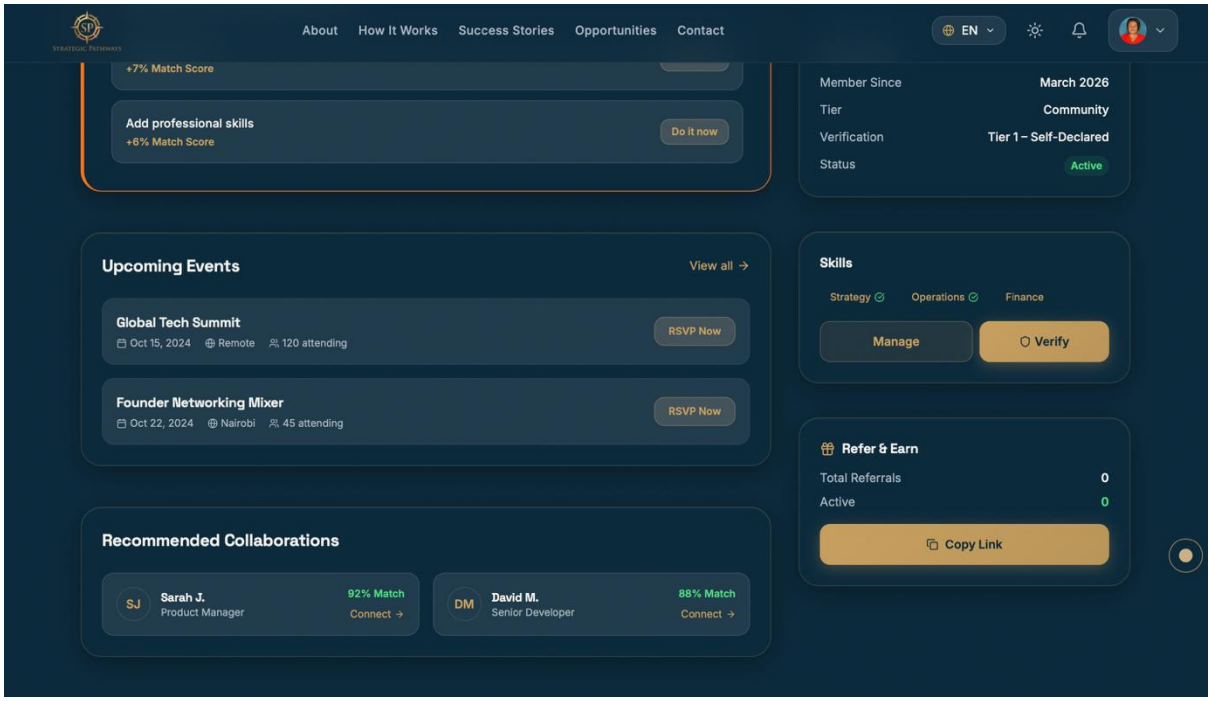
Quick action doesn't work



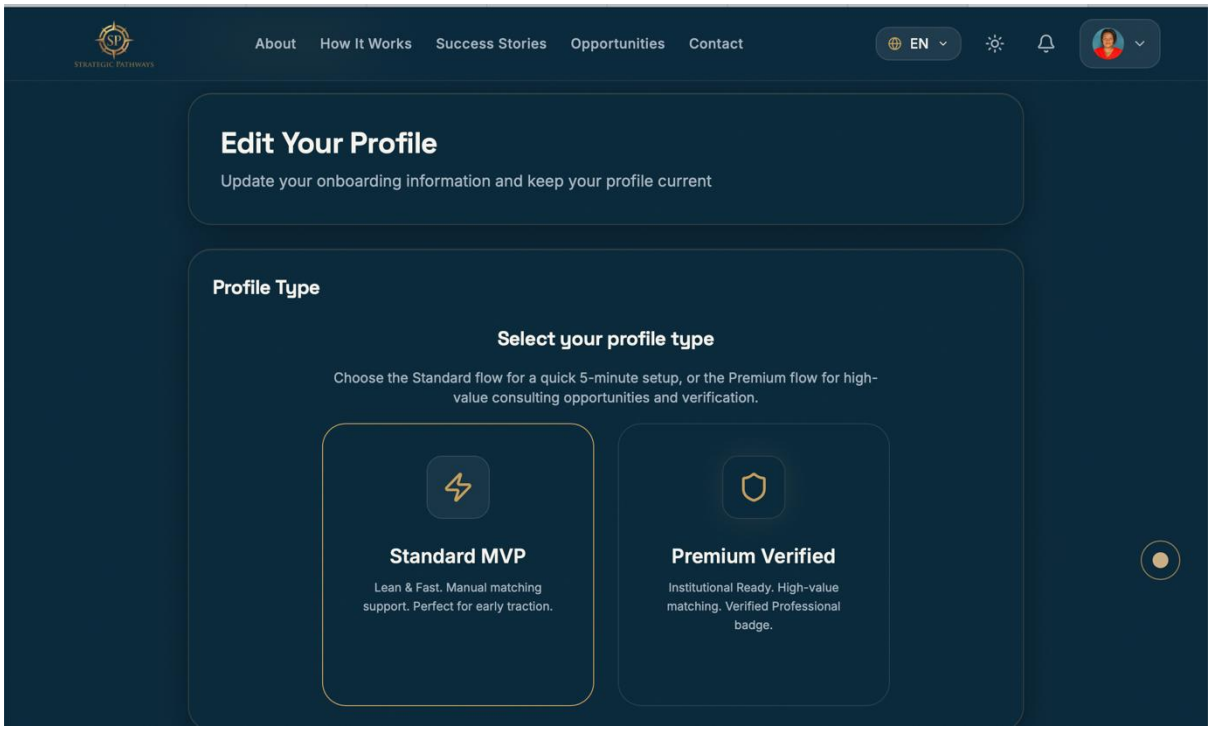
Upgrade to premium doesn't work



Last page viewed using signed in account, yet you can still see the 'Ready to make an impact?' This shows disconnect

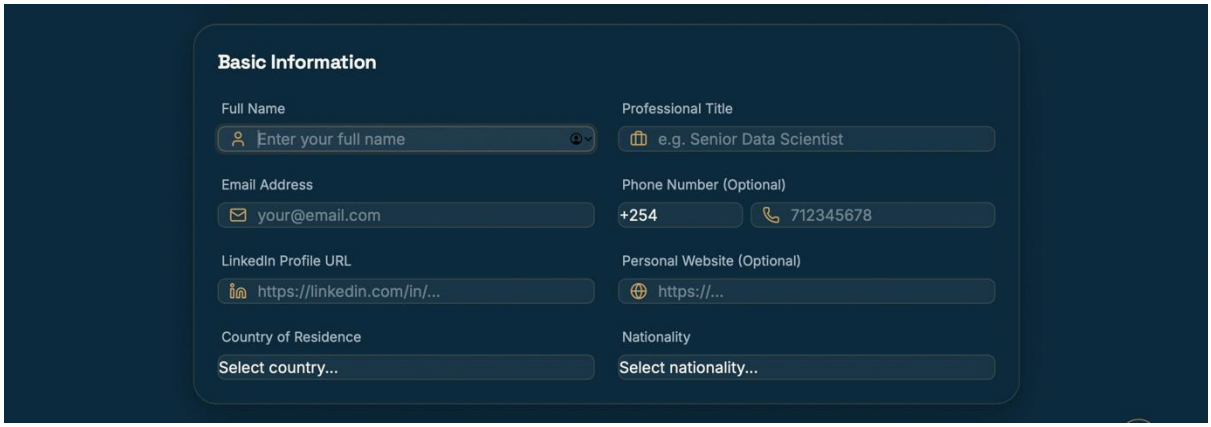


We are discouraging profile viewing and collaborations. The platform doesn't allow checking other profiles



I don't understand the difference between these two. I thought premium should allow for subscription but yet again the content is the same. Should it be different?

All users must have freemium profiles before upgrading...

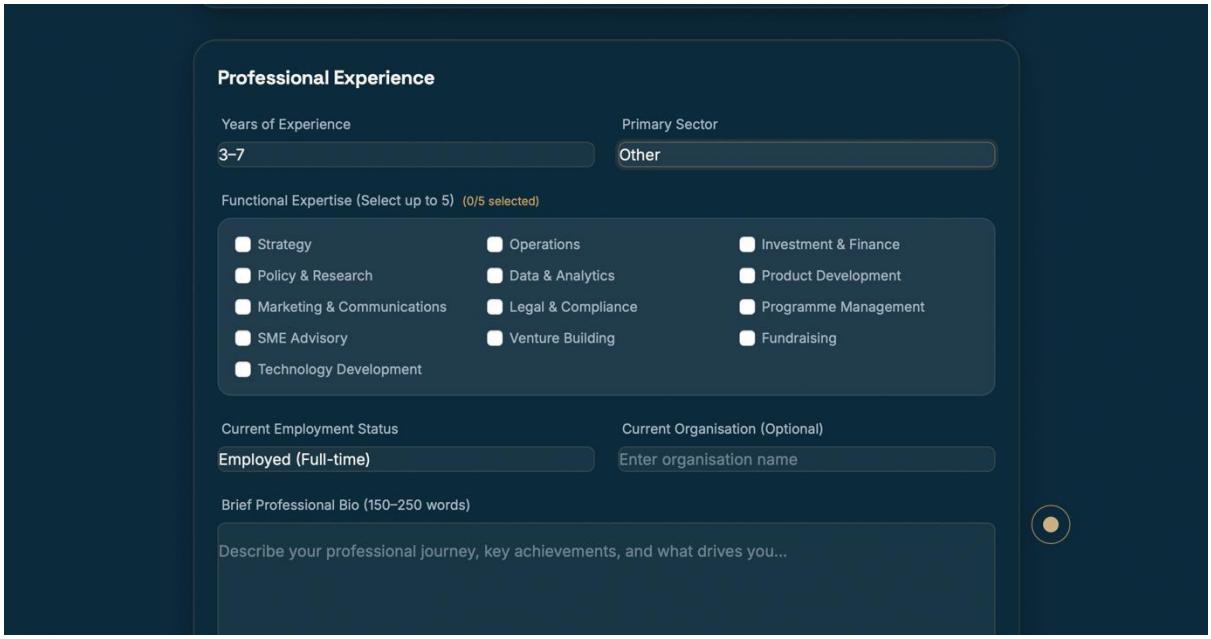


Can full name and email not allow editing

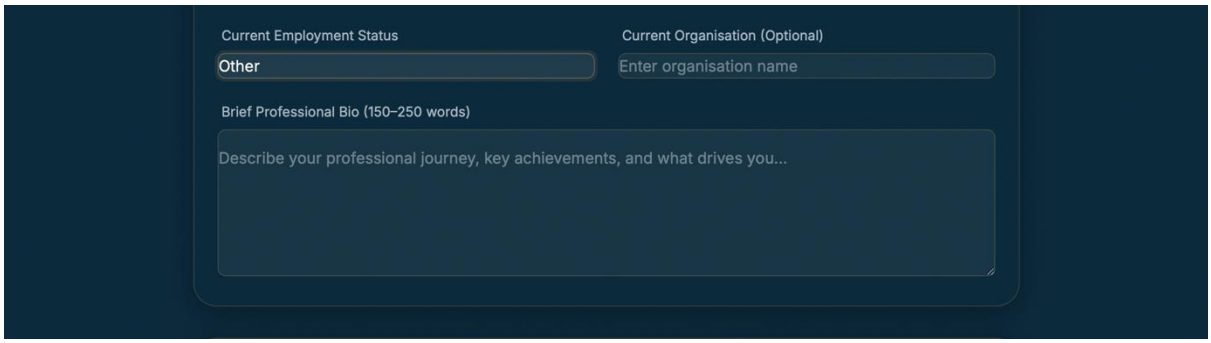
Phone number should allow other country codes, because of dispora experts

Is LinkedIn rofile URL optional or a must fill?

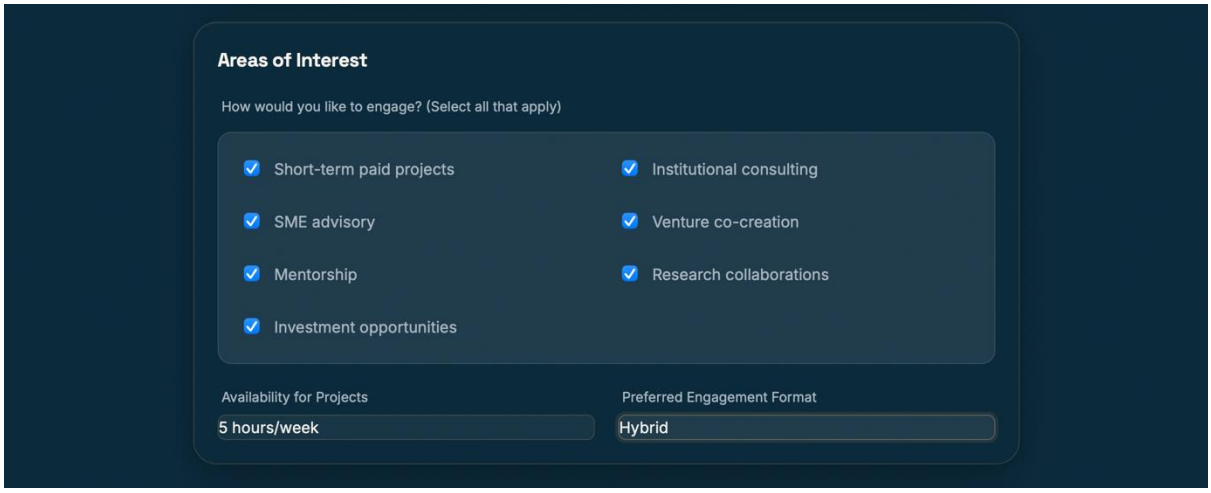
On Education, Other countries worked in should not be mandatory



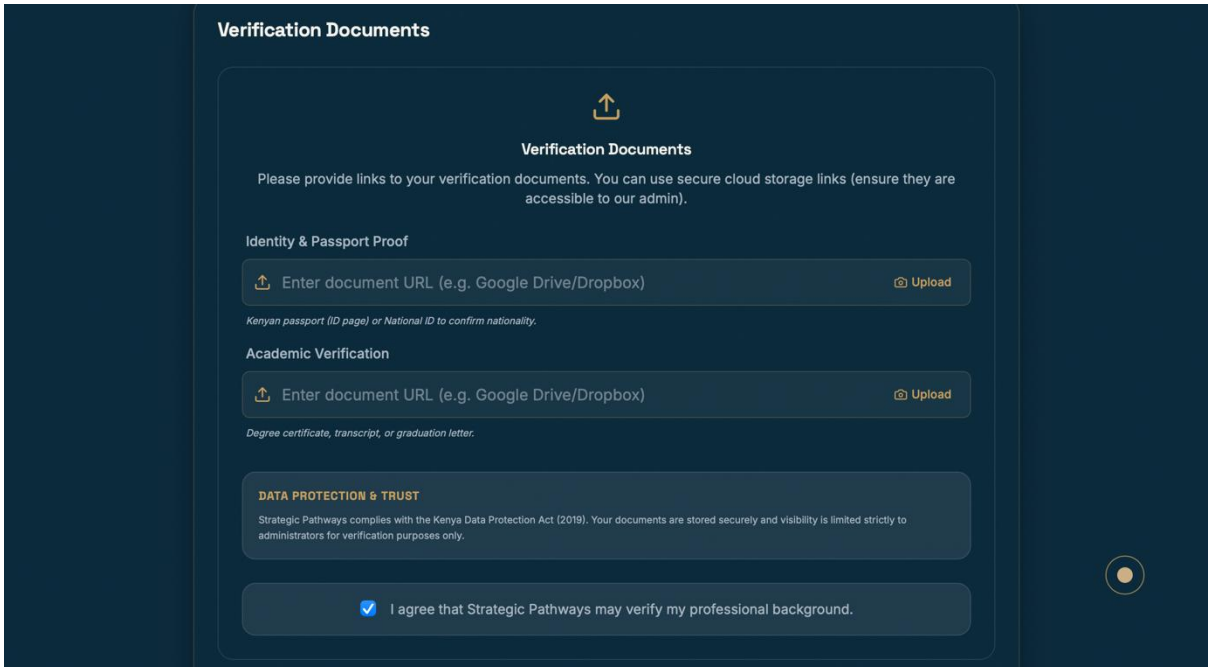
On primary sector, the 'other' option should allow users to manually fill the sector



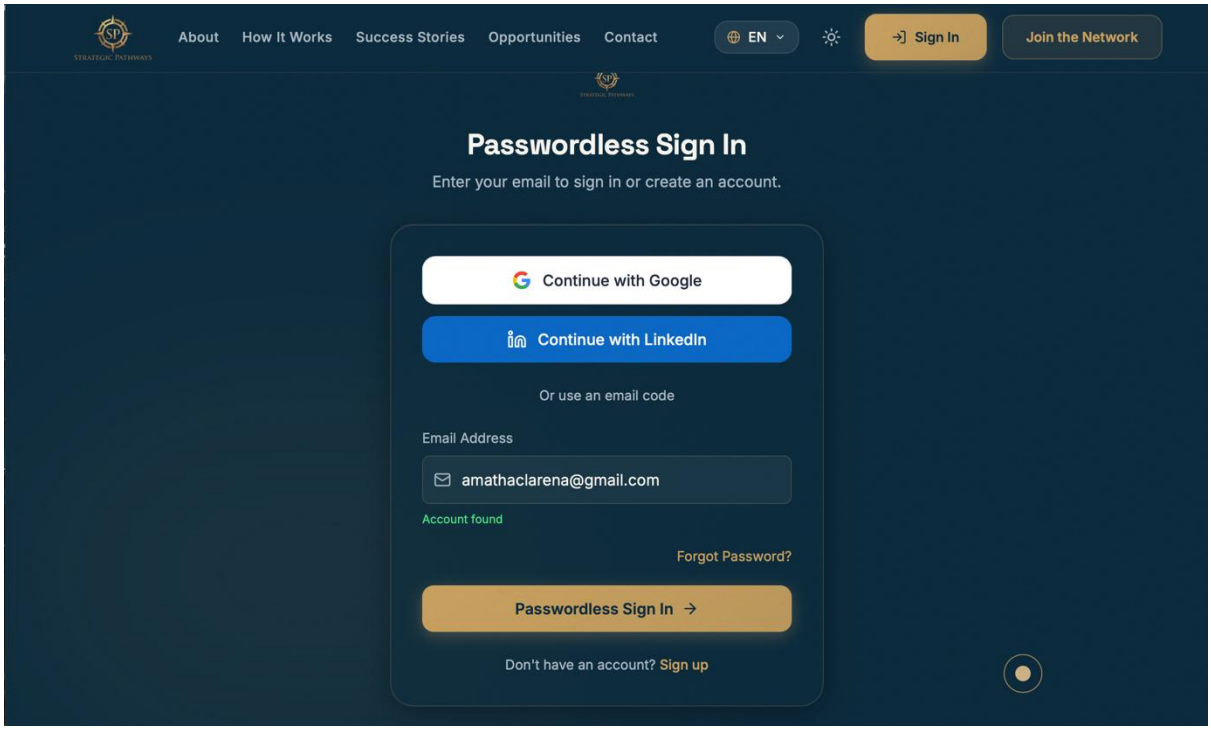
On current employmeny status, include unemployed



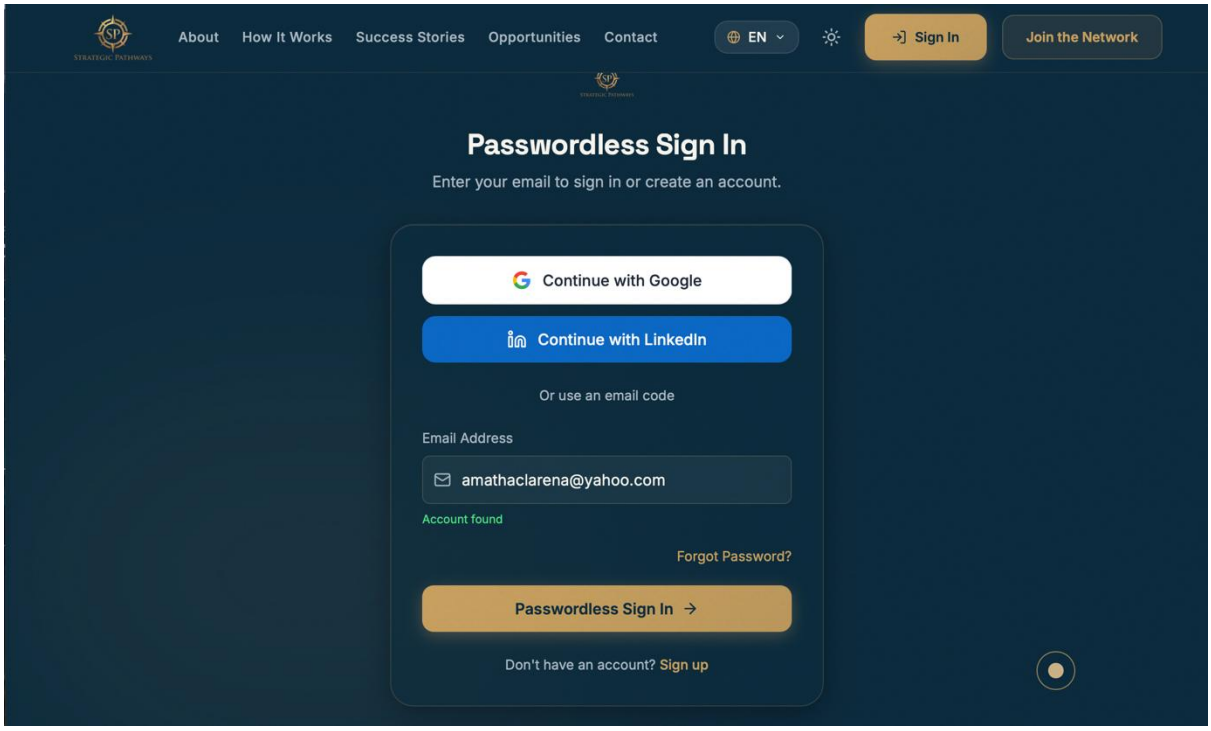
Just state Availability. Erase ‘for Projects’



Make verifcation documents mandatory



When signing in, you have to press enter again to get email or else screen remains like this.



Tried yahoo mail, took long to get OTP, used gmail to create account. The OTP for yahoo email came later. But on signing in, the yahoo email is found. This will create duplicate profiles.
